Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following letter No. 133 P., dated the 24th November 1902, from Lt.-Col. Percy H. Benson, M.B., I.M.S., Senior Surgeon and Sanitary Commissioner with the Government of Mysore, to H. V. Nanjundayya, Esq., M.A., M.L., Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to report that in accordance with the wish expressed by the Dewan in his D. O. of the 6th November 1902, I placed myself in communication with the Collector of Bellary with a view to inspecting the method of disinfection which pertains in the Municipal towns and villages of the Madras Presidency, and on his recommendation I went to Adoni, where plague has been prevailing since the 21st July, and is still prevailing though in a lesser degree. I arrived at Adoni on the morning of the 16th November, and was met by Lt.-Col. King, C.I.E., Sanitary Commissioner of Madras, and Mr. G. T. Reilly, I.C.S., Assistant Collector, who is in charge of Plague Preventive Measures in Adoni. The normal population of the town is 30,000 (and the number of houses 6,000), but at the time of my visit it was estimated that there were not more than 6,000 persons, the remainder having either left for other places, or were encamped in the neighbouring fields or villages. Plague first began on 21st July 1902 and up to the 17th November there had been 880 attacks and 802 deaths, giving a mortality of 91 per cent which is about the same as in other places. Shortly after arrival I went with the Sanitary Commissioner of Madras and Mr. G. T. Reilly, I.C.S., Assistant Collector, and made an exhaustive inspection of the disinfection operations which were going on. There were, at the time of my visit, 763 coolies being employed on this work at 4 annas per diem.

The Supervision staff consisted of—

5 Divisional Inspectors on Rs. 58-12-0 per mensem.
4 Circle Inspectors on Rs. 31-4-0 per mensem.
25 Maistris on Rs. 8 per mensem.

The average number of houses disinfected daily is about 118. The disinfection done by these is what is termed "general disinfection of infected houses." The disinfectant used is mercury perchloride of the strength of 1 in 1,000 for general disinfection (in cases of infected houses 1 in 500 is used for places where the infected person was known to have been lying). The whole of disinfection operations are further supervised by the Assistant Collector, who sees for himself that the houses are properly disinfected, and the goods freely exposed to the sun. I consider that the work is being carried out in a very efficient manner indeed. Thanks to zeal and untiring energy displayed by Mr. G. T. Reilly, I.C.S.

I enclose two statements, one showing the establishment employed on these operations in Adoni Municipality, the other giving the cost of disinfection of each house, which works out at about Rs. 1-10-11 per house, and as 6,000 houses have to be done, the total cost of disinfection operations alone will come to Rs. 10,093-12-0. To the above charges must be added the additional Police and clerks, required to carry out the passport and observation system, which is most rigidly enforced at Adoni. For this purpose there are 35 Police at Rs. 8 per mensem and 18 passport clerks on Rs. 15 each. There are also 4 Policemen at the grave-yards and a daily gang of 5 coolies (at 4 annas each) is employed to disinfect the persons of those who bring dead bodies to the grave-yard.

The Medical charges are—

1 Hospital Assistant employed in Railway Station on Rs. 25+10.
1 Ditto in the town do
1 Ditto at the Plague Hospital do
1 Nurse employed in town on Rs. 35.

On the following day I was given a list of the infected villages and selected to go to a village of Virupapur, distant 6 miles, in order to see the process of disinfection that was being employed there.

Mr. Wait of the Abkari and Salt Depot on a salary of Rs. 150+37+15+15 is the Supervisor in charge of all villages within a 8-mile radius of Adoni. The number of villages in his circle is 36, of which 12 are infected, and ten of these have been completely evacuated. The staff under him consists of—

3 Circle Inspectors on Rs. 40+15+15.
2 Disinfecting Inspectors on Rs. 45+11-4-0+15.
5 Circle peons on Rs. 9.

For every evacuated village there are 4 Police on Rs. 8.

The Medical staff consists of—

1 Hospital Assistant on Rs. 25+10.
13 Ward attendants on Rs. 8.

The disinfection in villages is *precisely* the same as that done in the town of Adoni with the exception that villagers are employed instead of trained men. The number of houses disinfected each day is about 12. In the afternoon I inspected a village some 2½ miles from Adoni in which every house had been disinfected and the village thoroughly cleaned up. I have much pleasure in testifying to the thoroughly efficient way in which it had been done.

In conclusion I have to thank Lt.-Colonel W. G. King and Mr. G. T. Reilly who rendered me every assistance in watching the method of disinfection done to the minutest details.

READ—

Correspondence ending with letter No. 527, dated 20th November 1902, from the District Magistrate of Bangalore, reporting that, in a case against a yarn-dealer in Chikpetta for infringement of the Merchandise Marks Rules, the City Magistrate apprehends that the testing of yarn in accordance with Rules IV and XII under the direct supervision of the Magistrate will take more than three months, and suggesting that the Rules may be clearly worded so as to be practicable in working.

No. R. 2663-71, DATED BANGALORE, 13TH DECEMBER 1902.

ORDER THEREON.—The Government do not understand why the City Magistrate should have felt any difficulty in the matter. Under Rules X and XII of the Merchandise Marks Rules, an examination of yarns to test the accuracy of the description of count or length, or to determine length, need only be made up to a limit of one bundle in every hundred, or fraction of hundred bales in a consignment. In the present case, the consignment seems to have consisted of no more than seven bales; so, the Magistrate need not have examined more than a single bundle; unless, of course, the accused was dissatisfied with the test, in which case he could (under para 2 of Rule XII) *on payment of the cost*, ask that more hanks up to one per cent of the total number of hanks in the consignment be measured. There is nothing in Rule IV (*a*) requiring that all the bundles in the seller's possession should be subjected to test; nor is there any greater labour involved in arriving at the *average* count or length than at the *total* count or length, since average is merely the total divided by the separate number of units.

2. It may also be remarked that the Rules do not contain a direction that the Magistrate himself should conduct the counting process personally.

3. With these observations the records of the case now pending disposal before the City Magistrate for some time, are returned.

Secy. to Govt., Gen. & Rev. Depts.

21. It is premature to enter this year the results of the Sringeri Jahgir Inam enquiry. F. 168—193-94, dated 15th March 1901. (2) Government Proceedings No. 14601-610—R. F. 166-92, dated 4th March 1902, observing that as the matter has been long pending disposal, all claims should be reported upon before the 30th April 1902, special explanation being furnished in rare cases of an exceptional nature.

F. 166-92, dated 29th October 1902, that the records of certain cases of Inamdars' claims to toddy revenue received from the Deputy Commissioners of the Tumkur, Kadur and Mysore Districts, have been returned to them for additional information, and in three cases the Superintendent of Inam Settlements has been addressed for some material information, and that urgent reminders have been issued to the Deputy Commissioners of all Districts except Chitaldrug, requesting them to expedite the submission of pending cases.

No. 255-63—R. F. 166-92, DATED BANGALORE, 3RD DECEMBER 1902.

ORDER THEREON.—When Government passed their orders referred to above, they hoped that by this time all claims would have been finally settled. Consequently they did not authorize an advance this year as in past years. But they are seriously disappointed to find that only a small number of cases have been reported upon, so that it can scarcely be said that the work has made a beginning.

2. Before dealing further in this matter, Government desire the Deputy Commissioners of Districts to submit, at a very early date, a detailed report showing (1) claims preferred, (2) date of claims, (3) by whom and when enquired into and with what result, (4) date of report in each case to the Excise Commissioner and (5) claims pending, with explanation of delay in each case. The Excise Commissioner is, at the same time, requested to submit, for the information of Government, a list of claims reported upon to his office, showing the date of receipt of each report in his office and the action taken with date thereof.

FOREST.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. 354-61—2912-19, DATED BANGALORE, 1ST DECEMBER 1902.

ORDER.—In the course of his inspection of the Taluk Cutcherry at Kadur, a case came to the Second Councillor's notice in which a forest offence committed so far back as December 1901 did not form the subject of a complaint before the Taluk Magistrate for fully ten months, *i. e.*, before September 1902. On a perusal of the forest file on the subject, Government find that the patel of Beliganur reported to the Amildar of Kadur on the 27th December 1901 that a sandal tree had been set fire to by a certain individual on the same date. The Amildar Mr..... directed on the 3rd idem that the Yemmedoddi Forester should inspect the spot and send up to him with a report, the patel, the alleged offender and the registered occupant. On the 8th, 9th and 21st of January 1902 the Forester recorded the statements of certain persons and submitted the same with a report to the Amildar on the 28th idem. The Amildar Mr.....unnecessarily held a further enquiry on the 12th and 13th January 1902, and in forwarding the records to the District Forest Officer some two months afterwards, *viz.*, on the 17th March 1902, suggested that the Forester be directed to prosecute the offender before a competent Magistrate. The District Forest Officer Mr.....on the 24th idem sought the orders of the Deputy Commissioner to institute a prosecution for which in his opinion there were sufficient grounds. The Deputy Commissioner Mr..... .....on the 31st March 1902 enquired, notwithstanding that he had before him all available evidence, whether there was evidence to warrant a prosecution. The same District Forest Officer on the 4th April 1902 expressed the opinion that there was sufficient evidence to justify criminal proceedings being taken. The same Deputy Commissioner on the 12th idem directed that "in case there is proper evidence forthcoming against the offenders, a criminal prosecution may be instituted." This shows that the Deputy Commissioner did not, in spite of the result of his enquiry, form his own judgment but left it to his subordinates to do what they deemed proper. On the 13th idem, the District Forest Officer ordered the Chikmagalur Ranger to study the records carefully and to carry out the orders of the Deputy Commissioner, *in re* prosecution and report the result of that proceeding. The Range Officer.....passed the papers on to Forester.....on the 24th May 1902 with a direction that the latter should study the records carefully, prosecute the offenders before the Kadur Taluk Magistrate (presumably the very officer who had dealt with the case on the revenue side) and report the result. The Forester took his own time over the matter and delayed action for about 4 months.

2. Government observe that there was in this case regrettable delay and indecision throughout. The object of the Departmental enquiry before the Amildar is not clear, nor that of the reference to the Deputy Commissioner, nor that of the enquiry made by the Deputy Commissioner who, even after being replied to, hesitated to take any responsibility upon himself. The inaction of the Forester requires severe notice being taken of it. Government hope that all Forest offences will be dealt with as quickly as possible and without any circumlocution or needless enquiry.

(iv) Letter No. 5941, dated 23rd October 1902, from the First Assistant to the Honorable the Resident in Mysore, stating that the Resident in Mysore is prepared to accept the suggestions made by the Durbar, provided that an assurance is given that the stock of small shops licensed under any of the Mysore Explosives Rules other than Rule 18 will be properly supervised and regularly examined.

No. 336-46—S., DATED BANGALORE, 18TH DECEMBER 1902.

ORDER THEREON.—In modification of previous orders on the subject, the Government are pleased to direct that applicants for the export of explosives from British India into the Mysore State may hereafter submit their applications direct to the Honorable the Resident in Mysore, together with the license granted to them for possession of explosives. All District Magistrates are requested to notify this fact for the information of importers of explosives in their districts.

2. The concession granted above does not relieve the District Magistrates or other local inspecting officers under the Explosives Rules from the responsibility of regular periodical inspection of premises licensed for the possession of explosives, and they should satisfy themselves at each inspection that the quantity of explosives in stock is not greater than the quantity permitted under the license.
